## PRAISED BY CITY

WASHINGTON, Nov. 18. (P)—The heavy burdens of the War Department were transferred by the death of Secretary Good to the comparatively youthful shoulders of Patrick J. Hurley, of Tules, Okla., who as a major and later a lieutenant-colonel participated in three big offensives of the World War and now wears the Distinguished Service Medal of the American government.

Harley, 46 years of age at the time he took office as assistant secretary soon after the Hoover administration was inaugurated, is high in the list of those about whom speculation ranged tonight over a successor to Mr. Good.

His appointment was one of the Close friends of the former Justice Telegraphy of the comparation of the former Justice Telegraphy of the comparation of the compa

hamen ar. Cood, and it was for that reason that some thought the appointment might be tendered to him.

Close friends of the former Justice Department official are of the opinion, however, that Mr. Donovan will not consider such an appointment at this time, since he has just established himself again in the legal profession and in so doing is following his own natural bent.

In his services for the Hoover administration, Mr. Good, besides performing the manifold duties of Lectedary of War, kept a close sentact with members of Congress where he served for a number of years as a Representative from lowa. Because the late Secretary had undertaken such a task there was some talk that the President might look to Congress for his successor, but it will be a number of days before Mr. Hoover will go into the subject of selecting a man to take the place of his friend. EVERT MORNING LOS Angeles Cimes PAILT POUNDED IN THE YEAR LOS ANGELES

Those who believe he will receive serious consideration for the post of Secretary point to the fact that such a selection would give the South a place in the Cabinat which it failed to obtain when Mr. Hoover was determining upon his ten departmental advisers.

The acting Secretary has been in charge of the mobilization of industrial resources of the nation for use in time of war. He was born in the Choctaw Nation section of the old Indian Territory, was educated at Indian University, now Bacome College, in Obiahoma, and for a number of years has been a leader in Republican affairs of the State. Another Southerner about whom speculation is evident is Stuart W. Cramer of North Carolins, who did much work for the Republican party in his State during the last campaign. Cramer was mentioned at one time as a possible appointee to the post of Secretary of the Navy. He is an Annapolis graduate.

X-Ray Film Explosion Puts Patients in Peril

Telephone Girl Leaps Forty Feet from Window

SAN FRANCISCO, Nov. 18. (P)—
Routed from their rooms by fire early this morning, more than 100 patients at the University of Callfornia Hospital here are being made comfortable tonight in undamaged portions of the building and in nearby temporary quarters.

All were moved to safety following an explosion and burst of fame in the X-ray film-examining room on the third floor, where 200 pounds of the film had ignited. The fire spread to the X-ray room and the corridor, sheets of flame from the fast-burning film shooting from the windows and lapping into the two rooms immediately above on the fourth and fifth floors.

PARIS, Nov. 18. (Exclusive)—A peasant uprising in the province of Abrussi against the Fascist regime and the resultant clashes between inflamed farmers and carabineers operating under martial law, have caused the death of three persons and the wounding of 100 more, according to a Milan dispatch printed in the Paris Communis. daily, Humanite tonight.

Despite the interference of troops, the terrorism instituted by the enraged farmers has driven out Fascist officials and the rank and file from several towns. Calabria and Apulla, the toe and heel, respectively, of the Italia. Peninsula, as well as Sielly, are also affected by the farmer uprising. Military law has been invoked in all parts affected.

The revolt centers in the town of Salmona, province of Abrussi, where the peasants have been terrorising the Fascists for nine days, gravely wounding the Mayor, burning the City Hall, demolishing the Fascist a football game here Saturday.

#### BIRTH CONTROL DEBATE FUTILE

Pro and Con Arguments on Subject Inconclusive

Churchman Denounces Idea; Sociologist Defends

**New York Convention Slated** for Three-Day Session

NEW YOlkK, Nov. 18. (Exclusive)
debate between Canon William
heafe Chase and Dr. Joseph Mayer,
aciologist, on "Does Birth Control
romote Immorality?" marked the
pening session of the National
irth Control Conference under the
uspices of the American Birth
ontrol League here today. The
inference will continue tomorrow
ind Wednesday.

The canon expressed the belief that expression of irrationality in sex is a concomitant of birth control and he asserted that deliberate employment of it destroys real love. He also declared that the influence of the birth-control movement is immoral in that it tends to cut down the hirth rate among those classes best fitted to have children, while the higher rate continued in other classes whose population soon outnumbers that of the first. Birth control tends to overemphasise sex, he said.

Dr. Mayer asserted that prevention of spread of birth-control information to married persons rather than advocacy of such distribution of laformation is the real immorality. This lack, he said, results in large families often under conditions where overcrowding in tramped quarters leads to breaking down of moral fiber, leading to other forms of immorality. It also encourages marital intelicity, seading to infidality IDEA IMMORAL

BAN FRANCISCO, Nov. 18. (Ex-SAN FRANCISCO, Nov. 12. (Exclusive)—Between emphatic opinions about the relative superiority of idaho and California potatoss and Utah and New Mexico coal, hearing on the Great Northern's attempt to get into California via the Western Pacific moved rapidly today, bolstered by six State bodies of the ten who have intervened for the petitioning roads.

Those who testified for the State bodies are L. G. Reif, rate expert for the Arisona Corporation Commission; Hugh H. Williams, chairman of the New Mexico Corporation Commission; E. E. Corfman, chairman of the Utah Public Utilities Commission; E. E. Corfman, chairman of the Colorado Public Utilities Commission; Frank E. # TRUTH IS MIGHTY

## and Majestic Advertising Has Always been Truthful Advertising

There is no substitute for truth. Anyone can paint a beautiful picture with words. But the real artist must toil long and arduously, until he learns with hands and brain to produce a painting which the world will look up to and exclaim: "There, indeed, is genius!"

Mother Goose tales make good reading for children, but grown-ups cannot take them seriously because they are not backed up with facts.

When Grisgby-Grunow Company advertised that it was manufacturing and selling 6,000 complete radio sets per day, it was not a word painting nor a fairy tale. It was a fact, accomplished and demonstrated before the eyes of all who came to see.

When Majestic announced that in the past five months it had sold more than ninety millions of dollars' retail worth of radio receivers, this also was a fact, easily substantiated by reports of auditors.

When Majestic announced "You cannot buy a better radio set than Majestic at any price," the manufacturing world was startled. Envious people disapproved. But hard headed business men and humble workers who own Majestic sets, and are proud of them, will tell you that this slogan also is true.

There has never been or never will be a statement put in print by the Grisgby-Grunow Company, unless it can be substantiated by proof. Facts so demonstrable that even the lay mind may comprehend. Whether you own a Majestic or are merely thinking of owning

one, you have a right to know that Majestic is still far and away the leader in sales, in popularity and in singleness of purpose—to give the greatest value that brains and unlimited production facilities may offer, for the least money.

It is high time the public was informed of the Facts. In the language of the Better Business Bureau: "Before you invest, investigate."

Ethics of some manufacturers in making wild statements and wild claims about sales of radios are deplorable. It is up to the public—it is up to you to test their truthfulness. Just ask for the facts and figures. Don't be misled by word pictures. Before you buy a radio, assure yourself that the brand you are buying will be on the market not merely for another week or month, but that you will be proud of its purchase in years to come.

Majestic has led, is leading and will continue to lead.

Majestic hereby invites, and urges you, the public which supports it, every one and any one, to compare it. Test the tone with any other set in the world, examine the cabinet in comparison with any make of receiver ever made -look at the power pack and speaker-scrutinize the chassis. Then decide whether or not Majestic really is better.

Majestic challenges any radio manufacturer in the world to disprove the slogan, "You Cannot Buy a Better Radio Set Than Majestic at Any Price."

WAYS ON WONDER BREAD

The bakeries that now bake Wonder Bread in and near Los Angeles are all familiar to you. They have long baked the popular Holsum Bread for Southern California. There

are three of them ... the stately Holsum Bakery in Beverly Hills . . . the Hooper Avenue (Los Angeles) Bakery . . . and the former Holsum Bakery in Long Beach.

Now the ovens of these familiar landmarks are baking a new and better loaf-slo-baked Wonder Bread. Why are we doing this?

To give housewives this new day bread, and because of the insistent demands of those who knew Wonder Bread in other cities, we arranged to bake Wonder Bread here. We made the necessary inprovements in our Southern California bakeries, which we have owned and operated for years, and began producing Wonder Bread.

Wonder Bread is, you will find, vastly better

The transfer of the second terms

than any other bread you can buy. It represents the expenditure of \$6,000,000 spent in research, modern equipment and ingredients of the finest quality.

Two years ago we placed it on the market. At that time bakery experts told us it would cost too much to make. They pointed out that our recipe called for ingredients that cost \$1,000,000 extra to buy. And so they prophesied tremendous losses.

But we maintained that women would note

the difference instantly. We had faith in their judgment . . . and we were eight.

Today Wonder Bread is bought by 10,000,000

Wonder Bread is baked by expert bakersmen who are specially trained. We use a specially milled "short patent" flour. Only the autritious heart of the wheat berry is used. We use double the usual amount of milk. And every drop is pasteurized.

These ingredients are extremely costly, but they provide a truly superior bread—we bene-fit through tremendous extra sales.

We employ, also a unique baking method. Wonder Bread is "slo-baked." This brings you a more delicate flavor. Greater digestibility. Keeps fresh longer.

Will you give this new-day bread an immediate trial? Your own grocer has it. Only remember to say "Wonder Bread" and say it

#### HOOVER AIMS APPLAUDED

Business Men Sanguine of Results from President's SHOW GAIN Program of Stabilization of Business

BY EARLE E. CROWE

Under the leadership of the Hoover administration in Washington, forces are at work that hold the possibility of greatly reducing the thireatened slope in the business curve. The conference of business leaders called by the President is expected to produce tangible results in stabilizing business and industry, and to substantially offset the ill effects of the panic in the stock market.

Universal approval of the President is course of action was expressed yesterday by business men and investors affite. The program outlined in his statement appealed to responsible men as the commonsense approach to the problem, as contrasted with the usual political treatment calling for a liberal mixture of empty assurances and promises of legislative aid.

What the Hoover conferences can do, as indicated by the President, is to induce corporations and industries to survey their situations calmily and proceed accordingly. Already it is noted that two automobile companies that announced cur-bulled to the four leading Chicago meat-packing companies. About 80 per cent of the company's business consists of the production of meat

ly and proceed accordingly. Already it is noted that two automobile companies that announced curtailment of production and dismissal of workers have changed
their minds, having decided apparently that snap judgment under
panie conditions was not justified.

The Hoover conference recognizes
that the mos spirit rules in degresslors as in panics. The calling of
the series of meetings of leaders
in different lines is an experiment
on a grand scale to correct public
psychology, to eliminate underground rumors and the fear of the
unknown. A premium is placed on
the gathering of facts, something
the business economists have alwas hoped to have done in just
such a situation.

When the men called to the conference gather around the table the
discussions will show where money
can be expended wisely by corporations for future needs. Without this
gathering it is doubtful if these expenditures would go forward, the
corporations with reserve funds
probably deciding to hol disect until
hey could see further ahead. In the
mantime the capital available for
these expenditures would be employed in safe but nonconstructive
thannels.

increase of \$404,786 or 12.07 per cent.

The company, which has recently opened four new stores, lately launched a rapid expansion program, which according to Mr. Hoedemaker, will be continued despite the collapse of security values in the stock market. A new store is now under construction in the new Orpheum Theater Building, which he says, will be the most modern of all the Pign Whistle units. There are now twenty-one stores and restaurants in the chain located in Seattle, San Francisco, Oakland, Berkeley, Passdem, Los Angeles and Hollywood.

Net earnings for the faces year closed June 30, last, totaled \$153, 580.65 equal to \$1.81 a share on \$5,500 shares of participating preferred stock. Sales for the same period aggregated \$3,871,348.

the case in lead and sinc. The copper situation is far different than either of the other metals as there is no European source of copper to import in competition with the American produced product. The drop in the London price of copper to sales abroad.

Copper companies are announcing a reduction of production of 20 to 25 per cent in line with the policy of adjusting production of 20 to 25 per cent in line with the policy of adjusting production of consumption. There has been no evidence as yet that any reduction of this extent is necessary, but the curtailliment is somewhat in anticipation of a possible condition expected to be caused by a further curtailliment of building, auto construction, radios, etc., which are anticipated as a result of the stock marks thereon for production cuts to this extent will be reducted to the caused by a further curtailliment of production cuts to this extent will be reducted to be caused by a further curtailliment of building, auto construction, radios, etc., which are anticipated as a result of the stock marks thereon in cuts of the stock of the copper stitustion vary from 10 per seant to 25 per seant, and the prompt action of the production, it will undoubtedly go up. Opinions of those in close touch with the copper stitustion vary from 10 per seant to 25 per seant, and the prompt action of the producers are going to take no chances of a not having cut enough, as they are taking the maximum figure.

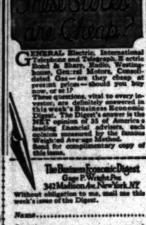

OPTINION CONFLACTS

There is much conflict of opinion as to whether the copper production in anticipation of the face of present and probable conditions. The processary for cuts production, and they are going to test out the market just as just to the couple as the control of the producers in cutting production in anticipation of the face of present and probable conditions of the producers in cutting production in anticipation of the production and before the drop in consumption was evident, will do much to assure he will be completed to the complete of the copper that the proce

ever, and that is that buyers are going to test out the market just as long as possible and only buy from hand-to-mouth for a number of weeks in spite of the fact that it is known that there is much November metal needed and that but little has been bought for December delivery. The curtailment will serve largely to remove the idea that any break is coming.

There is nothing to show that copper consumption will drop off randly as the fabricating plants are operating at a high rate in this country and a fair rate abroad. On the other hand, there is no effect of production curtailment for about three months or until the mine production of today reaches the market in refined form so that the market by about three months.

Conservative investors have begun to realize that there is no substitute for bond security. The proven dependability and assured income offered by underlying obligations, which are amply protected as to assets and earnings, are the bed-rock on which to build.

The sharp upturn in bond prices this month indicates a renewed interest in fixed-income securinterest in fixed-income securities on the part of both institutions and individual investors. The trend of bond prices has been steadily downward since the beginning of 1928, and prices are still on the most favorable basis since 1925. Many bargains are available.

A detailed list of dependable bonds, now selling at bargain prices and offering a yield of 6% or 7% will be furnished on re-quest. Call, phone or use the coupon below.

What Can You Afford to Save?

SOME people seem to give more thought to what they can afford to spend than to what they can afford to save. That's why, so often, they find themselves unable to cope with an emergency; or forced to pass up some real opportunity. We all want the future to pay us - comfort, happiness, ease, But the future will owe us nothing, unless we have made an investment in the future. How shall we make that investment, unless we save?

What can you afford to save?

MARRIAGE RACKETEER LANDS PAIR IN MIX-UP

A young marriage promoter who is asserted to have taken over the duties of the county Marriage License Bureau without due process of law, yesterday was being sought for questioning following the complaint of Ricardo Macias, 1820 Seventeenth street, Santa Monica, and Acencion Santana of 1313 Cabrillo street, Venica.

The young couple appealed to Sheriff Traeger for aid after they hard been arrested and charged with vagrancy. They told the officers it hat they were married, but an inspection of the records of the Marriage License Bureau failed to show any record of it.

In reciting their experiences Marriage clicense Bureau failed to show any record of it.

In reciting their experiences Marriage License Bureau failed to show any record of it.

In reciting their experiences Marriage status of his son and that he girl told the deputy shortiffs that they went to the Courthouse on the 2nd inst., intending to apply for a marriage licenses, and that while walking down the hall-way they met a young man of Mex-

and Julius Stein on charges of burglary and robbery, Harry A. Stoier arose in Judge Doran's department of Superior Court yesterday and pleaded guilty to first-degree robbery. The burglary charge against him was then stricten from the calendar and sentence deferred pending the outcome of Stein's trial.

The two are charged with entering the home of Harry Feigenbaum at 504 South June street on the night of September 5, last, and robbing him and his wife of \$12.500 in gens. Gaining entrance through a window of the maid's bedroom, it is asserted, they bound and gagged the maid; then overpowered Feigenbaum and his wife and escaped with the jewels.

**Good Dividend Paying** Stocks are on the **Bargain Counter** 

The downward movement which took place in the market swept down all stocks without regard to values, earnings, dividends being paid or any standard of measurement.

The improvement, as we have previously indi-cated, is under way.

Stocks which are selling far below their intrin-sic value should recover. Business is good. There are no storms in the business horizon. The invest-ing powers of the country as a whole have not been impaired.

Wealthy individuals and the great investment rusts are now in the market to BUY. They are saying for returns.

Great motor stocks are yielding from 8 to 16 per cent on the present price, and selling from six to 10 times their earnings. There is no justification for such a yield. It is logical to suppose that a very marked improvement is shortly in order.

So it is with the great oil stocks and the big mail order companies. We believe that those who accumulate oil stocks at present levels may look forward not only to substantial returns but a very much enhanced price.

There are, in our opinion, many outstanding purchases at present price levels. We have prepared a brief digest of six such stocks, which we shall be glad to mail at once upon receipt of written or telephoned request.

To obtain immediate action we suggest you call at our offices, either in Los Angeles or San Pedro, at your early convenience.

For your convenience we shall remain open till 9 P. M. each evening this week.

You may arrange to make surchases from S chares upward on our Partial Poyment Plan of 20 Per Cent Down.

Has the Market Turned the Corner

While there is a staunch belief within financial circles that real stabilization of the market has begun, in our opinion this is applicable only to those stocks with high earnings and dividend rates—as pointed out in our announcements during the week. Come in and look over our recommendations and secure a copy of our special reports. We are in a position to carry your account on a reasonable margin basis.

Elderly Methodist Churchman Was First to Hold Office on Pacific Coast

Sixty active years of work in the Methodist Episcopal Church and its educational institutions have given Blahop John W. Hamilton of Washington, D. C., an optimistic view of life and of the American people. He will be 85 years of age next March.

"When the American Constitution was adopted, there was one church member and Christian in America to every fifteen persons who were not religious. Today the ratio is about forty-seven of the former to every fifty of the latter," said the venerable prelate at the Billimore yesterday.

"That, I think, answers the question better than anything that can be asid," he declared.

The world is getting better all the time, the Blahop is sure, and he does not believe all that is said and written about the waywardness and irresponsibility of young people in this fast age.

MORE GOOD PEOPLE

"We are living in a very different sods of entertainment and we all, live differently from what we did a generation ago. It is true, I think, that more young people go down educationally, socially and commercially than in the old days, but I am not sure that there is more of this in proportion to the increase in numbers.

"It is a fact that there are more good young people in this day and age than ever before. And this is true of adults as, well. The world is getting better," he said.

\*\*TIRST ON COAST\*\*

The first resident bishop of the Methodist Episcopal Church on the Pacific Coast, the prelate took up his duties at San Francisco in 1800, and served until 1908. His territory extended from the Cannedian to the Mexican border and as far east at New Mexico. He was a far east at New Mexico. OO MUCH MOTION What the country needs is a sta-zer for stocks—something that will be them from jumping up and down en a fellow isn't looking.

Farmer reports digging up sixteen pounds to one planting. This is the heaven-born ratio of sixteen to one that William Jennings Bryan was wont eloquently to urge.

It was noticed that the Rockefellers and other wise boys didn't buy many tocks until they got right cheap. They are smart enough to know that there is to fun in buying at the top of the marcet. The trouble was that about 30 per ent of the speculators were inexperienced shoppers. They went into the treet when the bargains were all gone and they never knew it until they saw he wormholes.

More farmers in Argentina are also demanding relief from their government. The wheat crop was sadly impaired by drought and other conditions have seen bad for them. Now they are asking the nation to pay each farmer \$35 a month until the next crop can be marketed. They want to know what a government is for if not to alleviate the financial pangs of its needy There is a spreading itch to make all governments paternal. The claimants are due for a bump when the politicians find that there isn't dough enough to go round.

The President-elect, prosecuted for revolutionary activities in the latter days of the Diaz regime, was named Governor of his home State of Michoacan in 1917. He then traveled abroad and in 1923 was named Ambassador to Germany by President Obregon, of whom he was a close personal friend. He was selected last spring as the logical successor to Obregon by the National Revolutionary party, which Obregon and Calles founded.

President-elect Ortiz Rubio (he has a double surname) comes to office in a Mexico which has made definite progress toward stability under a civilian administration, and in which military adventurers are at a decided discount. The putting down of the last revolt by Gen. Calles appears to have cleaned the army of most, at least, of its trouble-makers and enabled that military commander to take a vacation in Europe. If there had not been a genuine pacification; his departure probably would have been the signal for a new revolt, but no such event apparently has even been threatened. The church settlement made my President Gil seems to be working out in a generally satisfactory manner, and probably will not be disturbed.

Brown had retired and came here looking for something to interest him. He had four sons who had a lot of creative imagination but it turned toward four sons who had a lot of creative imagination, but it turned toward practical rather than artistic things. He saw the need of a paper-products company here and in Vernon found the location, a tract on which were two wells and an abandoned irrigation system. Millions of Jell-Well boxès, egg crates, butter cartons, icc-cream cartons and dried-fruit cartons now are needed every year. And not only old magazines and newspapers, but even old kraft cement bags, old packing boxes and any kind of old paper which can be shaken clean, reduced to pulp and made into new paper of some description with or without the addition of new pulp, are purchased by the plant. As night succeeds the day;
A monotone to pacify
Those weary of the fray.

Though life is bountful and strong, A time of rest is assect; With twilight comes the crickel song To slow day's fevered beat.

And when the heart has been renewed, As day begins to break, While every leaf is crystol-deused, There comes the call, "Ausake!"

Parnell's enemies traduced his honor and dragged his good name in the mud to wrest from him his crown in the hour of victory. But no touch of calumny ever sullied the reputation of his first lieutenant though he was as stalwart a fighter as his leader in the hottest years of the combat. There was something about the personality of T. P. O'Connor that disarmed rancor even among the noisiest and most hidebound of the Tories determined to crush the claims of Ireland.

"Long Live the King"

TUJUNGA, Nov. 14.—[To the Editor of The Times:] Here is something that happened the other day in our town. There was to be a big local celebration on the completion of a fine newly paved street and John Steven McGroarty had been engaged as star speaker of the occasion. Now it so chanced that on that same day there was another notable celebration at Mission Santa Clara, being the installation of a new bell, presented by the King of Spain, to replace the one destroyed by fire some McGroarty had been engaged as star speaker of the occasion. Now it so chanced that on that same day there was another notable celebration at Mission Santa Clara, being the installation of a new bell, presented by the King of Spain, to replace the one destroyed by fire some time ago, and Alphonso sent a special request to Mr. McGroarty that he be there and take a prominent part in the proceedings. It was a great honor coming from one of the oldest and richest monarchies across the sea. But with the noblesse oblige which is his distinguishing characteristic, our gentle poet-townsman cabled his regrets to the King of Spain.—'he had promised the neighbors," etc.

Conditions Dissimilar

LOS ANGELES, Nov. 15.—[To the Editor of The Times:] John H. Martin defends vaccination and spoils his assertions by comparing the mortality rate for typhold in the Spanish-American War and the World War. He most conveniently forgets that our soldiers during the Spanish-American War were fed on canned goods that had been sold to the Japanese government and had been sent back to Chicago packers because the meat was spoiled. Through collusion with some crooked government officials, said spoiled meat was fed to our boys while their strength was overtaxed in the swamps of Florida during a hot measure. If Mr. Martin will submit to the same conditions—eat rotten meat, live in a swamp country when the thermometer points to 110 deg. Fahrenheit and rely exclusively upon antityphoid vaccination to keep well. I shall believe in it, if he survives.

COMMUNITY GRAND OPERA

BY LANNIE HAYNES MARTIN At last Los Angeles has achieved the distinction of being able to produce local grand opera. It is a cultural landmark to which the city may well point with pride; and be-sides the evolutionary epoch which it marks, it is prophetic of sides the evolutionary epoch which it marks, it is prophetic of substantial civic unity. For,

ing, hard-working musicians of today.

And before adverse criticism is passed on the immature and not yet wholly trained voices of some of the younger members of the cast it should be remembered that not one among that long list of glorious names, names which made the old operahouse a golden treasury of record and memories, not one of those world-famous singers who did not have humble beginnings. Each one had to have

ginnings. Each one had to have his or her failures, tryouts and many minor roles before becoming a world-famous artist. And more than that each one had to have the encouragement of the community ir which he or she lived in order to struggle through the long years before success was reached.

There is nothing in the world so conductive to the harmony and happiness of a community as the giving out of encouragement and the expressing of enthusiasm, and for this reason, if for no other, the local opera should be valued as a great community-welding influence.

The Community Opera Association is a nonprofit organization and has officers and a board of public-spirited men and women who not only are receiving no compensation whatever for their services, but are giving of their own means, besides their time and labor, to make the venture a success. It is their aim, so they declars, to bring productions to the city at a cost within the reach of everyone and to give actual stage experience to the many talented resident artists ready for operatic careers.

That the opera will be pat-

terprise. Her aid and encouragement to young, striving sing-ers will stand as a monument to her name and her devotion to the cause of music is a spirit for which the entire city may well be proud.

#### A Policy that Guarantees You the Utmost in Radio Performance

The Stewart-Warner Radio is kept right up-to-the-minute by constantly incorporating every worthwhile scientific discovery, and by adding every worthwhile engineering improvement as quickly as found practical.

This policy has enabled us in the middle of this radio season to offer only the latest, most modern radio. A set that in comparative tests has won the title "The Set with the Punch."

If you are contemplating the purchase of a radio you may buy a Stewart-Warner now in full confidence that you are securing the best that 23 years of large scale precision manufacturing experience can produce.

Stowart-Warner radios are eclentifically manufactured. Our output is limited by our painstaking accuracy in maintaining quality.

You may buy with the assurance that you are buying an up-to-the-minute radio and getting full value for the price you pay.

Our price is based upon the cost of large scale produc-tion plus only a fair profit. We have not lowered the quality. We cannot lower the price. Twenty-four million satisfied Stewart-Warner customers have been sold on this policy. It applies to radio as to our many other products.

Note the outstanding features of the Stewart-Warner Radio listed here at the left. Ask your dealer to give you an immediate demonstration. Performance will decide for you which radio you want to own.

#### Improved Talkie Equipment Used for "Dynamite"

As "Dynamite" plays in theaters throughout the country it is evidently destined to leave behind it a trail of highly improved sound reproduction mechanism.

Such, at least, is the condition which, it is said, will follow the film's current engagement at the Criterion Theater, where it is now being shown in its first popular run. So different were the various methods Cecil B. De Mille used in utilizing the sound possibilities of the story that a complete rearrangement of the reproducing equipment was necessary before the production could be shown astisfactorily.

Particularly was alteration necessary in the sequence depicting an underground explosion in a coal mine. Douglas Shearer, chief sound expert at the Metro-Goldwyn-Mayer studies, found it necessary to conduct elaborate research w 2 in order to make the recording of the sound possible. Similar adjustments were then necessary on the theater equipment, with the result that houses in which "Dynamite" has been shown are said to have the most modern mechanism of the day.

Miss Bennett, whose work in "Disraeli" is outstanding, is out to win the same note on the talking screen that her father has won on the speaking stage.

#### Southern Love Story Comes to Fox Boulevard

A different talking and musical romance with all the traditions of the South, its fast horses and beautiful women, is "A Song of Kentucky," which starts at the Boulevard Theater Thurcday. Close to Sixty-three Tons Fowl for Holidays

BRAWLEY, Nov. 18.—Imperial Valley's first carload of Thanksgiving turkeys for the Los Angeles market are scheduled to leave to-morrow, according to Tom Elliott, traffic agent for the American Express Company, who is in the valley supervising a new method of shipment this season.

In the past the valley turkeys have been shipped out closely packed in barrels and crates. This season the birds will be dressed and suspended close together in refrigerator cars. It is believed that they will reach the market in much better condition than formerly.

According to Arthur L. Brummer, manager of the Imperial Valley Turkey Growers' Association, the members will have 110,000 pounds of birds to market for Thanksgiving. It is estimated that between 10,000 and 15,000 pounds will be sent out by independent raisers.

BY IRVING ECKHOFF

It looks like the mauling Poly Mechanics are going to steal the City
Leagus limelight again this week in their game with the Franklin
Panthers at Wrigley Field. Voyle Brennen has brought the Mechanics
along slowly until right now they are able to give any eleven in the city
a hard battle. The Panthers will take the field on even terms against
Poly. Squad Varies

Now that Hollywood has been more or less counted out of the football picture, the Les Angeles High Romans, who take on the Redshirts Friday, are generally conceded to have cinched the Major City League pennant. A victory over Hollywood will officially clinch it for the Romans.

New Auto King

Cheers Rival

A fitting tribute from one autoracing speed king to another was paid yesterday when Johnny Krieger, the new sensation at the American Legion Spendway, expressed the belief that Mel Keneaty, the deposed monageh of the dirt track, would stage a comeback. These drivers and some thirty-eight others will drive in next Sundays program.

Krieger, whe has broken tifree records in the past few weeks of campaigning in California and who shattered the course mark in the 100-lap feature nine days acclaims that Kenealy is a very clever pilot and one who is always dangerous.

"I beat Kenealy is a very clever pilot and one who is always access and the the course mark in the 100-lap rece," said Kriager, "but I don't approve of fans who ridicule him to death. While he won't give any of his tivals am edge at the starting the best start possible.

Krieger spent much time in Chympia. Wesh, but the "Flying Dutchman" wishes to be known as a native of Colorado.

"The man who owns the No. 25 I drive is an old pai of mine from near Denver," said the speed king. "His name iy Lloyd Pisher. He turned out to be a great racing carenninger with? I went in the driving. He keens that car tuned up perfectly, and I guess I will open it up as long as it will stand it."

Krieger is a framer motorcycle champion. He won the national title four wheelers and the AAA-open throttle sport.
